The key information document (KID) is accurate as at 01 November 2024.

You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THE PRODUCT?

Type:

Société d'Investissement à Capital Variable [SICAV]

Term:

This product is not subject to any fixed term.

Objectives:

The sub-fund aims for long-term growth of its assets through investment in real estate securities such as real estate investment trusts (REITs) in Asia Pacific countries and regions including Japan. Investments will focus on valuations such as dividend yield in addition to profit growth.

- The sub-fund may invest up to 100% of its net assets in equities issued by companies related to the real estate industry and/or eligible closed-ended REITs or similar eligible vehicles.

- The maximum weight of a single issue is 10%. The sub-fund can have its assets in money market instruments on an ancillary basis.

- The sub-fund may invest up to 10% of its net assets in units or shares of UCITS and/or other eligible UCIs.

- Sector level: Real estate investment trusts (REITs) in Asia Pacific countries and regions including Japan.

- Currency positions may be established to hedge foreign currency exposure in relation to the relevant share classes to minimise any fluctuations between the base currency and the currency of the appropriate sub-fund.

The sub-fund is actively managed. It uses S&P Asia Pacific REIT USD Total Return Index as a reference benchmark for performance comparison. The investments of the sub-fund may deviate significantly from the components of and their respective weightings in the benchmark. Income shall remain in the sub-fund and shall increase the value of the shares. You may redeem your investment upon demand. This fund deals weekly on Tuesdays.

The Sub-Fund aims for long-term growth of its assets through investment in real estate securities such as real estate investment trusts (REITs) in Asia Pacific countries and regions including Japan.

Intended Retail Investor:

Recommendation: The sub-fund is suitable for investors who see the sub-fund as a suitable means to participate in the capital market performance. The sub-fund is therefore suitable for investors who can afford to invest their capital over the long term i.e. a multiple year time horizon.

Depository : Brown Brothers Harriman (Luxembourg) S.C.A..

The prospectus and current reports, the current share prices and further information about the sub-fund or further share classes of the sub-fund can be found free of charge in English language on webpage www.smd-am.co.uk.

The share price is published daily and is available, along with any indicative net asset value, online at www.smd-am.co.uk.

The fund is a sub-fund of the Company which is an umbrella fund with segregated liability between sub-funds. This means that the assets and liabilities of each sub-fund are segregated by law.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for a minimum of 5 Years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the fund to pay you.

Be aware of currency risk. The underlying funds may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Due to effects of unusual market conditions, other risks could be triggered, such as: counterparty risk and liquidity risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended minimum holding period: 5 Years Investment: 10 000 USD			
Scenarios Minimum There is no minimum guaranteed return [if you exit before 5]. You could lose some or all of your investment.		1 Year	5 Years (recommended holding period)
Stress scenario	What you might get back after costs	5 330 USD	4 070 USD
	Average return each year	- 46.68 %	- 16.46 %
Unfavourable scenario	What you might get back after costs	6 960 USD	7 310 USD
	Average return each year	- 30.42%	- 6.07%
Moderate scenario	What you might get back after costs	10 300 USD	11 520 USD
	Average return each year	3%	2.88%
Favourable scenario	What you might get back after costs	13 050 USD	14 790 USD
	Average return each year	30.52%	8.14%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 07/2019 and 06/2024. Moderate: This type of scenario occurred for an investment between 05/2015 and 04/2020. Favourable: This type of scenario occurred for an investment between 11/2014 and 10/2019.

WHAT HAPPENS IF KROLL (LUXEMBOURG) MANAGEMENT COMPANY SARL IS UNABLE TO PAYOUT?

In the event of the insolvency of the manager and/or management company, the Fund's assets in the safekeeping of the Depository will be unaffected. However, in the event of the Depository's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss.

The Depository is required to segregate its own assets from Fund's assets and will be liable to the Fund and investors for any loss arising from its negligence, fraud or intentional failure to fulfil its obligations (subject to certain limitations).

WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and should show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

Investment: 10 000 USD	If you exit after 1 Year	If you exit after 5 Years
Total Costs	118 USD	698 USD
Annual Cost Impact*	1.18 %	1.22 %

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.09% before costs and 2.88% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 Year
Entry costs	The fund does not charge any entry fee.	N/A
Exit costs	The fund does not charge any exit fee.	N/A
Ongoing costs		
Management fees and other administrative or operating costs	1.10% of the value of your investment per year. This is an estimate based on actual costs over the last year.	111 USD
Portfolio transaction costs	0.07% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	7 USD
Incidental costs taken under specific conditions		
Performance Fee	The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	0 USD

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?
